

### Preparing feeding and misc equipment advice:

- Stairgates to have all bolts and screws in a bag attached to the frame.
- Breast pumps to be manual or electric closed system with all parts included and where possible an original manual.
- Bottles to all have lids, used teats removed and ensure bottles are not heavily stained.
- Weaning items of 1 bowl, plate, cup & cutlery to be bundled together.
- Muslins 3-4 bundled together with string/an elastic band.

Thanks so much!
